

Team Building Above the Rhine Valley

Region: Rheingau

Participants: 5 — 25 | **Duration:** 2,5 - 5 h | **Price:** from 89 € pp plus 19% VAT

The UNESCO-listed Upper Middle Rhine Valley is one of Germany's most impressive natural and cultural landscapes. Steep vineyards, historic castles and dramatic rock formations create the perfect backdrop for an extraordinary team experience.

Our guided via ferrata adventure combines outdoor activity, teamwork and personal achievement. Together, participants leave their comfort zones, support each other and experience the Rhine Valley from a unique perspective.

After a professional safety briefing and introduction to the equipment, the team begins its journey along the via ferrata route.

Participants learn the basics of climbing techniques, safety procedures and equipment handling before taking on the first sections of the trail. Along the route, secured climbing passages alternate with scenic hiking sections, allowing participants to enjoy the impressive surroundings while progressing together as a team.

No previous climbing experience is required. Our experienced trainers accompany the group throughout the entire event and ensure a safe and enjoyable experience for everyone. Alternative walking routes are available for more challenging sections, making the event accessible to a wide range of fitness levels.

The shared experience of overcoming obstacles, supporting colleagues and achieving common goals strengthens trust, communication and team spirit. The outdoor environment creates memorable learning moments that can easily be transferred back into the workplace.

During the tour, participants enjoy breaks with spectacular views across the Rhine Valley and may recharge with optional outdoor snacks or refreshments.

At the end of the adventure, teams can celebrate their achievement together in a traditional regional restaurant. Optional wine tastings and Rhine Valley culinary experiences provide the perfect conclusion to an unforgettable day.

Why Choose a Via Ferrata for Team Building?

The via ferrata combines adventure, communication and mutual support in a natural setting. Team members learn to trust one another, overcome obstacles together and celebrate shared success.

The combination of physical activity and teamwork creates a memorable experience that strengthens relationships long

after the event has ended.
